

SHEQSA CONSULTING

ISO 45001 – OH&S AWARENESS TRAINING

1. COURSE SUMMARY:

The introduction course provides the participant with an oversight on the requirements of ISO 45001:2018 standard regarding Occupational Health and Safety (OH&S) Management. This course is designed for personnel who are not involved or responsible for the OH&S Management Systems, but do have an impact on the company overall OH&S management.

The course prepares the participant to understand a brief description of the OH&S Management Systems standard requirements as well as importance of legal and other requirements related to occupational health and safety.

It demonstrates how OH&S Management contributes to the day-to-day business operations through the effective application and management of resources.

2. WHO SHOULD ATTEND:

- General operational staff;
- Management and supervisors;
- Staff working on customer sites or on construction sites
- Those with an interest in OH&S Management System.

3. OUTCOME:

With the successful completion of this course the participant will be able to:

- ✓ Understand the ISO 45001:2018 requirements applicable to them;
- ✓ Understand the seven OH&S Principles and the application of such;
- ✓ Understand HIRA Risk base thinking
- ✓ Understanding Legal and compliance requirements
- ✓ Understand Corrective actions and dealing with emergency and accident investigation requirements.

4. COURSE OVERLAY

The following Focus Points will be addressed in the training through a brief discussion.

- ✓ What is Health and Safety and What does it Mean for Me
- ✓ What to know as the Employer
- ✓ What is the Benefits of a OH&S system
- ✓ HEALTHY WORK ENVIRONMENTS
- ✓ The Management system

The training is based on legal requirements and provide information regarding legal compliance as well.

DURATION OF COURSE: 4 HR
