ISO45001 OH&S MANAGEMENT SYSTEM IMPLEMENTATION TRAINING

1. COURSE SUMMARY:

The implementation course provides the participant with an in-depth level of knowledge on the requirements of ISO 45001:2018 standard. Our course is designed for personnel who are responsible for the development and implementation of the Occupational Health and Safety management systems.

A practical application of the standard requirements provides the participant with in-depth knowledge regarding the development, implementation and maintenance of the Occupational Health and Safety management systems requirements.

The implementation course prepares the participant to understand the requirements for auditing preparation as well as importance of Occupational Health and Safety Management as a tool to ensure compliance with customer requirements and continual improvement.

It demonstrates how Occupational Health and Safety management contributes to the day-to-day business operations through the effective application and management of resources.
