

SHEQSA CONSULTING

ISO45001 OH&S MANAGEMENT SYSTEM BRIDGING TRAINING

1. COURSE SUMMARY:

An informative course designed for those who are considering transitioning from an existing OHSAS 18001:2007 Standard to the new ISO 45001:2018 standard. This course will address the requirements of ISO 45001:2018 and aims to assist companies in preparing for ISO 45001:2018 Certification.

By attending this one-day course you will discover the benefits of implementing ISO 45001:2018 and how to practically apply this in your business

2. WHO SHOULD ATTEND:

This course is suitable for all levels of management and for those who:

- ✓ May already have a fully implemented OHSAS 18001:2007 standard and are considering ISO 45001:2018 certification
- ✓ Need to understand what an ISO 45001:2018 Health and safety management system entails
- ✓ Need to obtain third party certification of their Health and safety Management System against ISO 45001:2018 to meet the requirements of customers or to increase tender success

3. COURSE CONTENT:

The course will address the following:

- ✓ An overview of ISO 45001:2018 detailing its strengths and benefits
- ✓ Changes between the OHSAS 18001:2007 and the new ISO 45001:2018 standards
- ✓ ISO 45001:2018 certification requirements
- ✓ Introduction to risk base thinking

DURATION: 1 DAYS
