

SHEQSA CONSULTING

ISO 14001 ENVIRONMENTAL MANAGEMENT SYSTEM INTERNAL AUDITING TRAINING

1. COURSE SUMMARY:

Auditing of environmental management systems forms an important part of the process to demonstrate continual improvement, thus the ISO 14001:2015 standard requires that the environmental management system must be audited on a periodic basis. The Internal Auditor Course is designed for persons to conduct internal audits. The course material is based on sampling methods, interviewing techniques, effective listening skills, compiling non-conformities and value-added report writing.

Special emphasis is devoted to causing of non-conformances and effective development of corrective action requests. The internal auditor course is designed specifically those individuals responsible for carrying-out internal audits in accordance to ISO 14001:2015 standard requirements.

The course provides participants with opportunity to audit against procedures written for real world applications.

Participants are exposed to real life scenarios and are equipped to conduct internal as well as supplier audits in a professional manner.

Auditor roles and responsibilities including personal behaviour is also covered as well as the documentation forming part of the internal audit as well as supplier audit process and audit objectives, audit scope and audit criteria.

2. WHO SHOULD ATTEND:
